

COMMANDER HD OPEN

445

The Commander HD Open is a customer value model from our Commander series, all of which form part of a very serious capable range of boat, purpose made for the Aussie adventurer.

Mid or high Horsepower, VDH hull, reverse chines, heavy duty bottoms, close centred reinforcing ribs, wide beams, fully welded gunwales, H/D reinforced plates sides, heavy duty keel, shallow draft, razor sharp entry and deep sides. These aren't just a good idea, they are a must if you want to call yourself a tough tinny!

If that's not enough, check out this long standard features list - front castings decks, carpeted floors, fully welded H/D side decks and gunwales, two transom steps, side pockets, full width tank and battery rack, anchor well, bow and side rails, sounder mounting plate, transducer brackets, 2 x oversize thwart seats.

We have tried to make this the toughest best value tinny on the market and we are pretty sure we've succeeded.
