

HD DINGHYS

— 371 | 410

The HD Dinghy range from Makocraft—including the 371 and 410—is the largest of our vessels built with the signature Edge V tracking system.

It's just the start. Featuring a razor-sharp entry, deep midship V and flat transom, the HD range delivers a versatile V/deadrise for all conditions, paired with a stable, wide-beam hull and design that makes it equally suited as a car topper or compact trailer boat.
